ART FROM UNDER

Composer, producer, conductor — all around hot music guy from down under, Art Phillips, headlines this season's explosive offerings from FirstCom.

With a list of accomplishments as long as the Great Barrier Reef, he's hard to categorize — you'll just have to listen to track four on the demo to get a glimpse of real Art. Emmys, gold records, Grammys, Billboard's Top Ten R&B and Television Society of Australia awards line his study.

With music ranging from the steamy "Santa Barbara" TV series, to high-tech Nissan commercials, from feature films to bestselling record albums, Phillips knows how to set moods and evoke feelings. And Art's art mixes like custom scores. Listen to the wonder from "DOWN UNDER."
